

Mono[®] - Unlimited Solutions.

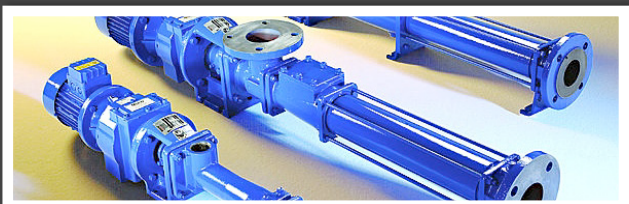

EZstrip™ Transfer Pump

165 m³/h

12 bar

The EZstrip Transfer Pump is the latest revolutionary new pump design which can be 'Maintained-in-Place' (MIP), making a day-long operation become a 30 minute job. Available in cast iron or stainless steel, with a choice of rotor and stator materials including WRAS compliant elastomers.

Compact C Range

440 m³/h

24 bar

The Compact C Range has been manufactured by Mono to offer a pump designed to fit into compact spaces, whilst reliably performing to the maximum duty requirements. Features include suction lift capability of over 8 metres, and variable speed for accurate dosing and process control.

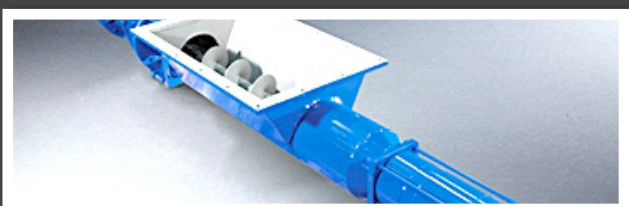

LF Dosing Pump

0.6 m³/h

12 bar

Designed for use where accurate, low flow rates are required for either intermittent or continuous dosing, the compact LF has a high tolerance to aggressive chemicals and a repeatability of +/- 2%. Ideal for contaminated products, the LF pump is fitted with a Flexishaft[®] for extended service life.

Widethroat W Range

215 m³/h

48 bar

The Widethroat W Range has been designed to handle highly viscous materials, such as sludges, slurries, thick non-flowing pastes and de-watered sludge cake with viscosities up to 1,000,000 cP, providing a process efficient method of handling sludges with high solids content.

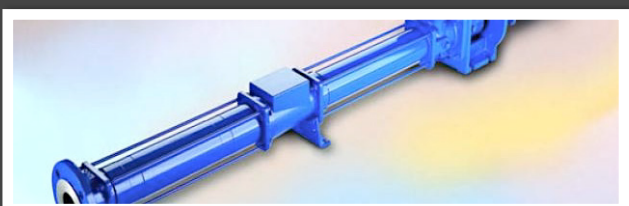

Merlin Range

61 m³/h

10 bar

A well established and proven pump design, the Merlin industrial pump offers you an economic and compact model, with in-built modular flexibility and both free moulded or moulded to metal stators. The Merlin pump has a compact and rugged design for durability and reliable performance.

Epsilon Range

420 m³/h

72 bar

A range of engineered high pressure pumps, designed to give least whole life costs and reduced spares requirements. The bloc construction of the Epsilon range has reduced overall dimensions and incorporates Mono's unique Flexishaft[®] drive transmission, with a 10 year warranty.

Helios Hygienic Pump

180 m³/h

24 bar

Helios - a new range of progressing cavity pumps for the hygienic market - combines all of the values associated with the well-known Mono brand at a competitive price. This stainless steel pump will appeal to end-users and OEM's in the food, dairy, beverage and pharmaceutical sectors.
